(Cell Reports 43, 115048; December 24, 2024)

In the originally published version of this article, the microscope image in Figure 2C “H2B cOE” was rotated and cropped to maximize the resolution of a single nucleus. However, only the Ch1 Hoechst image was rotated, inadvertently leaving all other channel images unrotated and cropped, resulting in an incorrectly merged image. Therefore, the authors have replaced the incorrectly merged image with the correctly merged image. This error does not affect the context of the manuscript. The authors regret this error.

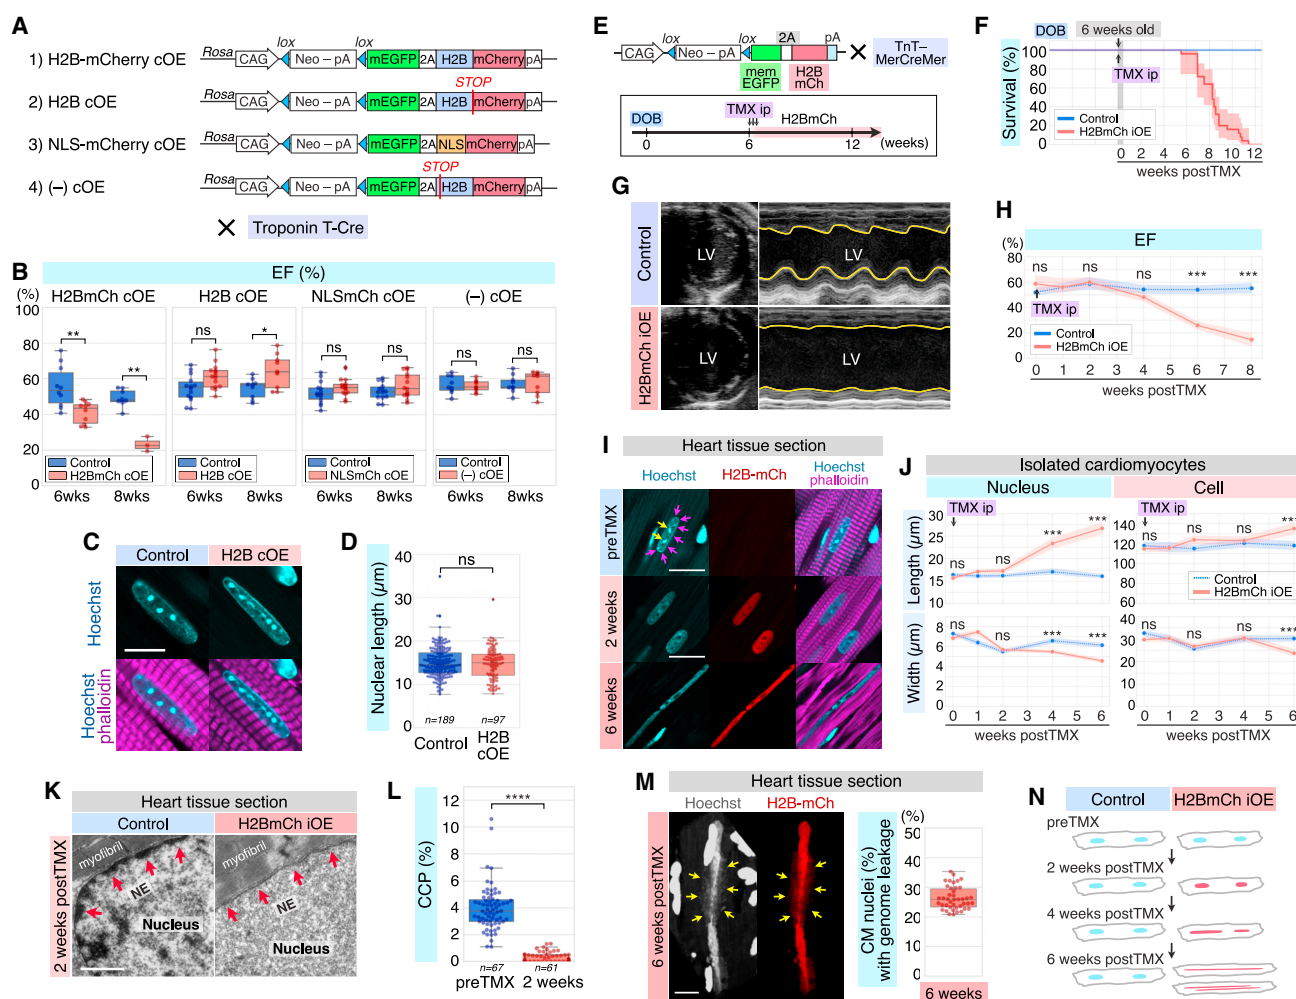

Figure 2. Induced overexpression of H2B-mCherry in adult CMs disrupts SOH (corrected)

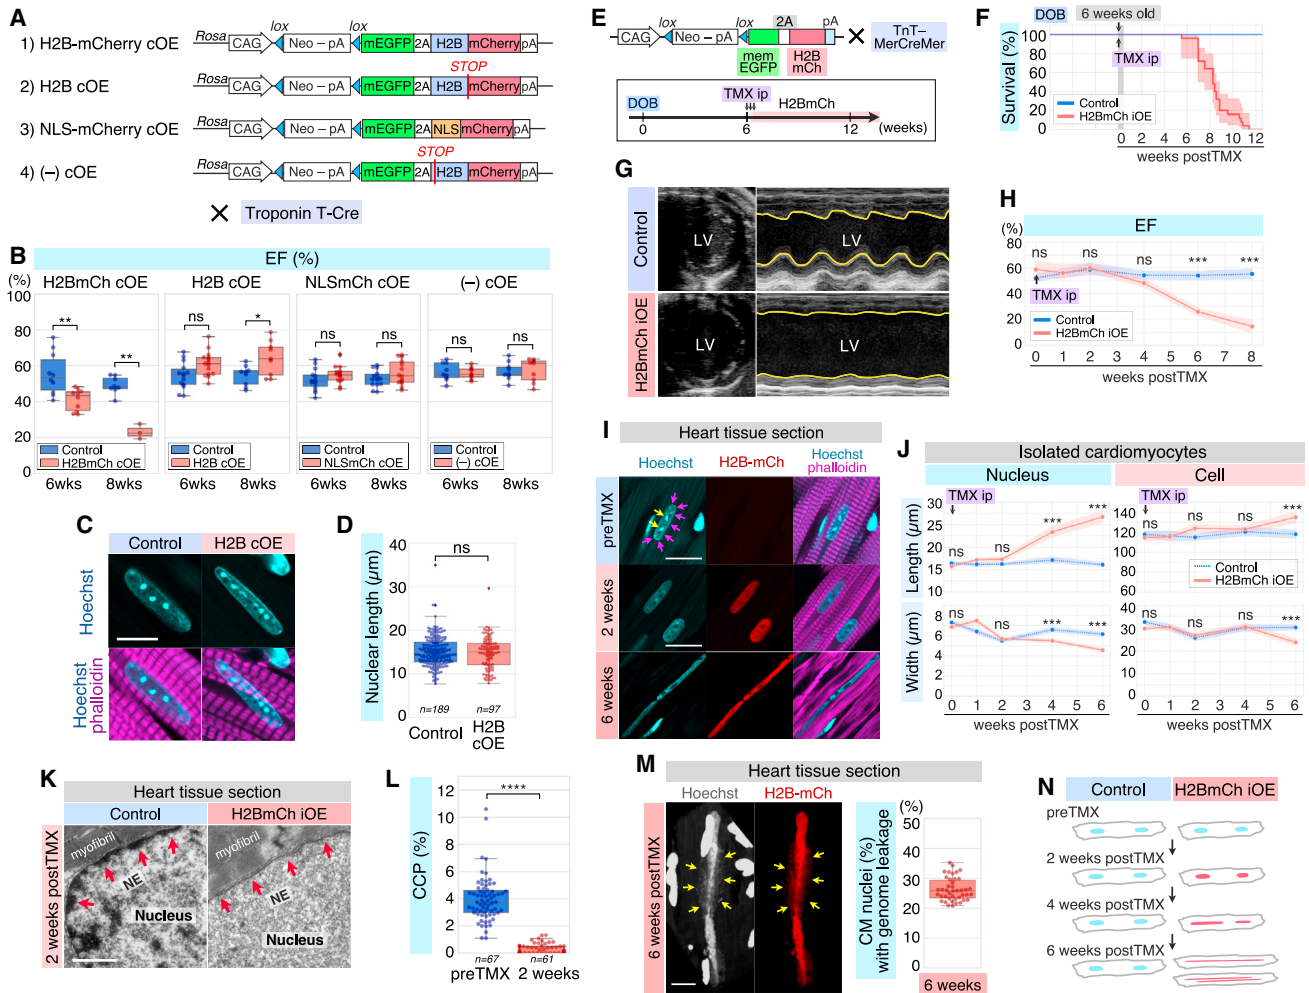

Figure 2. Induced overexpression of H2B-mCherry in adult CMs disrupts SOH (original)
