(Cell Reports 39, 110919; June 7, 2022)

As this paper was originally published on June 7, 2022, a mislabeling error during the preparation of the blot panels in Figure 4G resulted in an inadvertent duplication. Additional review of the figures and data also revealed another error, in Figure S3B, where one Anti-Myc blot in Figure S3B did not correspond with the Source Western blot. Although the article cannot be directly updated due to its age, the correct figure panels can be seen below. These corrections do not affect the scientific integrity of the paper's findings, results, or conclusions, nor do they necessitate any changes to the textual descriptions or figure legends.

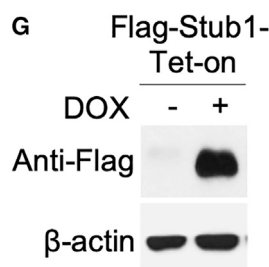

Figure 4G. (corrected)

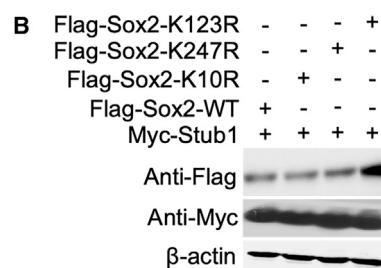

Figure S3B. (corrected)
